Adaptability

Curiosity for learning new technologies

Languages

Arabic

Native

English

Professional Working Proficiency

German

B2

Computer Science graduate with experience in software development, including writing, debugging, and testing code in collaborative team environments. Strong analytical and problem-solving skills, with a keen eye for detail and a commitment to code quality. Comfortable participating in code reviews, estimation discussions, and agile development processes. Motivated software developer eager to continuously improve skills and contribute to building reliable, high-quality products in a fast-paced team setting.

Education

Masterschool

May 2025 - Present

Training Program

Backend Engineering

- Completed intensive training in backend software engineering, applying advanced Python concepts, object-oriented programming, and relational database design to small projects..
- Gained hands-on experience in client-server architecture, RESTful APIs, routing, and scalable backend system design.
- Developing an MVP project with FastAPI and PostgreSQL, implementing secure authentication, data validation, and maintainable, data-driven API.

Tishreen University

Oct 2013 - Aug 2019

Latakia, Syria

B.Eng. in Computer Science

Experience

Professional Development

Jul 2023 – Apr 2025

German B2 and frontend-focused online training in React, Redux, and Agile/Scrum.

Tamakan Information Technology

Jan 2023 – May 2023

Remote

Junior Frontend Developer

- Performed manual testing, documented bugs in Jira, and implemented client-side CRUD operations using React, ensuring functional and reliable user interfaces.
- Collaborated with a team of three backend developers on Nest.js APIs, JWT authentication, and REST endpoints, integrating frontend features and supporting TypeScript-based workflows.

Contentpepper

Jul 2022 – Sep 2022

Münster, Germany

Frontend Developer Intern

- Developed and debugged Next.js project, implementing API routes and interactive pages while gaining hands-on experience with modern frontend frameworks.
- Assisted and mentored two trainee students, troubleshooting their code and guiding them to complete their assigned project.

MABCO

Dec 2019 - Oct 2021

Latakia, Syria

Application Support Specialist

- Collaborated with sales teams (4 members per branch) across three locations to improve data flow between departments, boosting performance in low-sales branches.
- Worked closely with a 4-member maintenance team to provide tailored solutions for customers using older devices, improving service quality and client retention.
